

Buttchain Buying Checklist

Your 5-Step Guide to Buying BUTT on Polygon

Before you start:

- MetaMask installed? (or another Web3 wallet like Trust Wallet)
- Polygon network added? (Chain ID 137, RPC <https://polygon-rpc.com>)
- MATIC in your wallet? Enough for swap + gas (at least \$10–\$20 recommended)

Step 1 – Connect to the Official Site

- Go to <https://buttchain.co> (bookmark this – it is the only official URL).
- Click “Connect Wallet” and choose your wallet (MetaMask, WalletConnect, etc.).
- Approve the connection in your wallet.

Step 2 – Swap MATIC for BUTT

- In the swap widget, enter the amount of MATIC you want to spend.
- Review the estimated BUTT you’ll receive (the 10% tax is already deducted).
- Click “Buy” and confirm the transaction in your wallet.

Step 3 – Add BUTT to Your Wallet

- In MetaMask (or your wallet), click “Import Tokens” / “Add Custom Token”.
- Enter the BUTT contract address:

0xc009b6c310fC0C9c93E0CAF0318759037cCD8FC2

- Token Symbol: BUTT | Decimals: 18
- Click “Add Custom Token” – your BUTT balance will now appear.

Step 4 – Verify Your Purchase (Optional but Recommended)

- On [Polygonscan.com](https://polygonscan.com), paste your wallet address to see the incoming BUTT transaction.
- Confirm that the contract address matches the one above.

Step 5 – (Optional) Generate Your Referral Link

- On the Buttchain site, find the “Share & Earn” section.
- Click “Generate Unique Link” – copy it and share with friends or on social media.
- You’ll earn 5% of any purchase made through your link (paid in BUTT).
